President Jackson would like all officers to meet at 6:45

Speaker;

Erin Rupp is the founder and Executive Director of Pollinate Minnesota. Erin founded Pollinate Minnesota after working with The Beez Kneez on their educational outreach programs and partnerships, and contributing to the successful 2014 Healthy Bees Healthy Lives initiative. HBHL was instrumental in getting two nationally unprecedented laws to protect bees from pesticides passed in Minnesota. Erin has been working as an educator for over 13 years, and has been an active beekeeper since 2007. Pollinate Minnesota represents the next phase in combining these two passions for Erin, and she looks forward to working with communities to promote education about bees and the important catalysts they can be for systems change.
